

Welcome to the Cuban Registry of Clinical Trials

By *admin*

Created 30/11/2011 - 1:38pm

The Cuban Public Registry of Clinical Trials (RPCEC) is a website with a database of clinical trials, with national coverage. It was established in 2007 under the leadership of the [National Coordinating Center of Clinical Trials \(CENCEC\)](#) [1] and with [INFOMED](#) [2] collaboration.

This site allows to the sponsors of clinical trials, to register their trials and to get a RPCEC code. For that they need:

- [Register as sponsor](#) [3] (only the first time of access)
- [Complete and submit the application forms both in Spanish and English.](#) [4]
- To obtain the RPCEC code

RPCEC code is obtained once the clinical trial is considered ready for registration and publication. This code must be acquired before recruitment of the first subject/patient.

Anyone interested can check the registered clinical trials and other information resources. Only a user who wishes to register a trial (trial sponsor) requires a username and password.

Note: If you are interested into register trials at the site, please visit "Registration process".
